adtronics®

Leaders in Electronic Sign Technology

48 YEARS ANNIVERSARY

Proudly Canadian

We Pioneered Electronic Sign Technology

Supplying the sign industry for more than 48 years

Celebrating our Past

Established in 1978, Adtronics quickly became the leader in electronic advertising signs.

Our team of engineers raised the bar with new proprietary technology and soon Adtronics name was behind the largest and most recognizable signs in North America.

Adtronics manufactured the world's largest outdoor video sign located at the Boulder Station Casino in Las Vegas Nevada in 1994.

Redefining our Future

After 48-years Adtronics continues to provide cutting edge technology with a proven track record of excellence. Serving clients in multiple countries, we have thousands of successful installations.

Elevate your brand with Adtronics, we offer digital solutions for any purpose or event.

Investing in digital signage is proven to be the lowest cost and highest return on investment compared to all other advertising mediums.

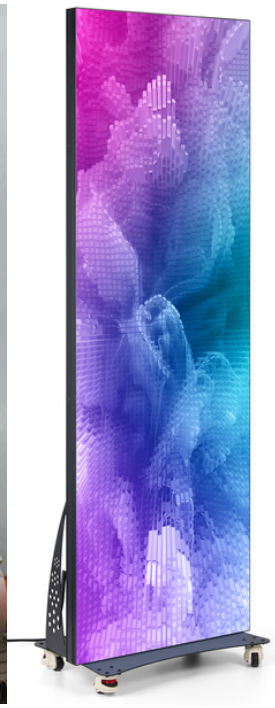

Remotely manage your ads on one sign or one hundred signs, update your marketing campaign in seconds.

Empower your Business with Information Technology. We provide turn-key digital display solutions making your digital sign experience easy from concept to completion.
